

**IMPLEMENTATION SCHEDULE FOR PROGRAMS OF STUDY AND RELATED ACTIVITIES  
(2009–2010)**

**Elementary, Junior High and Senior High**

**Revised December 2009**

This Implementation Schedule reflects plans for curriculum revisions and related activities as of April 2009. This schedule, based on a September 1 to August 31 school year, is designed to give school authorities time to implement revised or new curriculum and purchase new resources. Please note that this schedule is a long-term planning tool and may be amended in subsequent years.

Provincial implementation of new programs of study is scheduled when the program of studies has been approved, following field testing and/or optional use, and when learning and teaching resources are available. The current program is then withdrawn, except for use in special circumstances.

The schedule includes dates for provincial implementation of new programs of study and availability of provincially authorized learning and teaching resources, revised provincial assessments and distributed learning resources. The degree of change for each subject area is indicated using a star rating system (see bottom of each subject-area page) to facilitate planning and professional development activities.

In response to current fiscal realities, Education has made adjustments to the *Implementation Schedule for Programs of Study and Related Activities*, as identified in the table below and in the corresponding pages that follow.
